It is the responsibility of all individuals participating in any capacity in EC-sanctioned competitions to be knowledgeable regarding the EC constitution and the applicable rules of EC and the additional rules, if any, imposed by the competition. Do not participate in this EC- sanctioned competition in any capacity if you do not consent to be bound by the constitution and rules of EC and any additional rules imposed by the competition.

## ACCIDENTS & RETURN TO PLAY

1. This rule is applicable to all competitors (including foreign) at EC sanctioned events and applies to falls/accidents that occur at the event location.
2. In the event of a fall/accident where a concussion can be reasonably suspected, (not limited to a direct blow to the head or loss of consciousness), the competitor must receive medical clearance by qualified medical personnel onsite, through the EC Accident Injury Report Form before continuing. The competitor is solely responsible for ensuring the onsite medical assessment takes place by the onsite qualified medical personnel. If the competitor refuses to be evaluated, he/she is disqualified from the event.
3. If the qualified medical personnel suspect a concussion (regardless of symptoms displayed), or believes that the competitor may be at risk of concussion due to the nature of the fall or impact, the competitor is suspended from competition until medically released, as outlined in paragraph 6 below.
4. In the case of the preceding paragraphs, an EC Accident/Injury Report Form must be completed by either the attending Steward, Technical Delegate, or the attending qualified medical personnel onsite and submitted to EC within 24 hours of the occurrence. It is the Steward's / Technical Delegate's responsibility to ensure forms are complete and submitted on time.

The EC Return to Play Form will be processed by EC within two business days, at which point the competitor will be removed from the EC Medical Suspension list and may return to regular competition. If the competitor wishes to compete after being medically released by a physician but before the EC processing period of the form, the competitor must also submit a copy of the EC Return to Play Form to the show secretary. In this case the competitor is competing at their own risk and may be pursuant to fines and penalties if the form is found to be incomplete in any way.

## EMERGENCY VETRNARY TREATMENT - A1005

The purpose of this article on emergency therapeutic veterinary treatment is to allow the Person(s) responsible to self-disclose to Equestrian Canada, in advance of competing, that a horse, because of acute illness or injury, required immediate treatment with a prohibited drug which may not have cleared in time for competition. Continuing the horse in competition must not be detrimental to the overall welfare of the horse nor accelerate the disease process and horses must not compete for 24 hours following treatment. To prevent abuse of emergency therapeutic treatment, equine medication control may be specifically targeted at horses mentioned in any Emergency Medication Report.

By exception to the time listed in Article A1005.1, and EC General Regulations, Section A, Chapter 10 Article 1005.3, a horse that has been treated with 10mg of dexamethasone by a licensed veterinarian for an acute allergic reaction such as hives/urticaria must be withdrawn from competition for a minimum of 12 hours following administration. Permitted ONCE per competition.

The filing of an Emergency Medication Report is not an automatic defense to any subsequent certificate of positive analysis and/or an allegation by the Equestrian Canada Equine Medication Control Committee or its designate that there has been a violation of the equine medication rules. If the equine medication control result from an official sample collected from a horse treated as indicated on the Emergency Medication Report shows the presence of a drug, the Equestrian Canada Equine Medication Control Committee or its designate will fully investigate the matter and will review the nature of the alleged acute illness or injury, any relevant earlier filed Emergency Medication Reports, the therapeutic treatment administered, and the drug detected in the official sample.

In its sole discretion the Equestrian Canada Medication Control Committee may decide to take no further action, issue a warning or hold a hearing to determine if an Equine Medication Rule was violated. If a hearing is conducted, the information contained in the Emergency Medication Report and the veterinarian's medical records together with any other relevant information will be considered to determine whether there has been a violation of the equine medication rules.

The heels should be the lowest point. The upper part of the body should be easy, free and erect on the vertical. The hands should be carried steady and low and close together, with the thumb as the highest point and independent from the seat. The elbows should be close to the body, enabling the rider to follow the movements of the horse smoothly and freely.

## **RANCH HORSE SECTION**

The purpose of Ranch Pleasure should reflect the versatility, attitude, and movement of a working horse. The horse's performance should simulate a horse working outside the confines of an arena and that of a working ranch horse. This class should show the horse's ability to work at a forward, working speed while under control of the rider. Light contact should be rewarded and the horse shall not be shown on a full drape of reins. The overall manners and responsiveness of the horse while performing the maneuver requirements and the horse's quality of movement are the primary considerations. Horses should NOT perform or be rewarded for performing gaits as they do in Western Pleasure. The horses are to be presented in a more forward-moving style than the typical Western Pleasure Horse. The horse and rider will be scored on movement, which is cadence and rhythm of gaits, smoothness and consistency in performance, along with how they perform the optional maneuvers.

The required gait maneuvers will include the walk, jog, and lope both directions; and the extended jog and extended lope going at least one direction; as well as stops, and a back. Optional maneuvers are side pass, turns of 360 degrees or more, change of lead (simple or flying), walk, jog or lope over a pole(s); or some combination of maneuvers that would be reasonable for a ranch horse to perform. The overall cadence and performance of the gaits should be free-flowing and ground covering at all gaits, with an emphasis on forward movement. Transitions should be performed where designated, with smoothness and responsiveness.

**Ranch Riding:** Each horse will work individually, performing both required and optional maneuvers, and scored on the basis of 0 to 100, with 70 denoting an average performance. Patterns are available at:

<https://www.aqha.com/journal/resources/exhibitors/patterns/>
